

# Buyer Setup Checklist

What to consider when setting up a smart or connected adult device

- Create a new and unique email address for this account
- Consider a fake identity if connecting with strangers
- Use a password manager to create and remember a strong password
- Check your surroundings for details in any profile or public photos
- Be aware of risks sharing identifying marks like Tattoos
- Consider what may happen with any pictures or video if the relationship ends
- If not comfortable sending certain content, do not use those features, understand how to disable them
- Does the app allow you to restrict who can see any profiles or photos?
